

## Welcome

### SUMMARY OF THE PROJECT

The project “Improving the professional skills in green constructions through online training” is an Erasmus+ project, Action Strategic Partnerships for vocational education and training.

The project aims to improve the professional skills in green construction through online training and to support the EU Agenda from 10.06.2016 for new skills (A NEW SKILLS AGENDA FOR EUROPE, 10.06.2016) and in particular the program for SKILLS FOR A GREENER ECONOMY.

The coordinating institution is RTA, Latvia.

Given to the European scope of the project activities, the project team is transnational and includes partners from Latvia, Bulgaria, Germany and Hungary, who will develop, test and certificate the training modules in accordance with the needs of the European construction sector.

By using the appropriate environment the training modules will be web-based and accessible to students, construction workers and all interested stakeholders.

The project will reflect the latest trends in the fast-growing construction sector and its needs of contractors with appropriate skills in the green sector. So it will help to develop training modules for a green construction as support to construction workers with green skills, whose number in 2020 is expected to reach 700 000.

### Project basics

- Acronym: Green construction
- Grant agreement no.: Nr. 2017-1- LV01-KA202-035483
- Title: IMPROVING THE PROFESSIONAL SKILLS IN GREEN CONSTRUCTIONS THROUGH ONLINE TRAINING
- Duration: 1 September 2017 – 31 August 2019
- Action type: KA2
- Programme: ERASMUS+
- Participating countries: Latvia, Bulgaria, Germany, Hungary

### Target Groups

- Primary target group: VET teachers
- Secondary target group: VET students

**COORDINATOR: REZEKNES TEHNOLOGIJU  
AKADEMIJA**

Contact: Prof. Lybomir Lazov,

## KICK OFF MEETING

From 12th -14th October 2017, the kick off meeting of the project Improving the professional skills in green constructions through online training with Project number Nr. 2017-1- LV01-KA202- 035483 took place in Rezekne, Latvia, hosted by Coordinator Rezeknes Tehnologiju akadēmija and PARTNERS:

- Rezeknes Tehnologiju akadēmija, Latvia
- Veda Consult, Bulgaria
- Schnellkraft Personalmanagement GmbH, Germany
- European Center for Education, Science and Innovation, Bulgaria
- iTStudy Hungary Számítástechnikai Oktató- és Kutatóközpont Kft., Hungary

During the days of the kick off meeting, we discussed the administrative part of the project, divided responsibilities and clarified the key points. The meeting allowed us to get to know each other even better and form project management team that would work towards successful implementation of the project.

## NEXT MEETING (Bulgaria)

From 22<sup>nd</sup> - 23<sup>rd</sup> March 2018 will be the 2<sup>nd</sup> meeting of the project, this time we will meet all together in Bulgaria, hosted by Veda Consult, Bulgaria and European Center for Education, Science and Innovation, Bulgaria

### **22 March 2018:**

Analysis of the results of Outputs 01 and 02

Each partner reports on the performance of O1 and O2 Outputs (in the form of a short presentation and a written report!). The report contains the analysis of the study and its findings. It also provides brief information about the VET system for the project target group in their country. Each partner applies a list of 20 companies that participated in the survey.

Summary analysis of the implementation of O1 and O2 - Adoption of general conclusions

Analysis of finance issues on the project for 6 months. Presentation of the requirements and order of accountability by the accountant.

Discussing a general dissemination plan

Analyzing the content of the topics outlined in Modules

### **23 March 2018**

Analisis of the web based distance learning environment - Discuss, Adoption of decision

Discussion of the Program for the next six months
